

Below are a set of statements that outline what your child should be able to do in Maths and Literacy at the end of the Reception year. We are working on these at School but appreciate that you can help to achieve these at home too. Please keep us informed of any progress in these areas through their C.H.A.T books to celebrate the achievements!

Reception Summer Term Expectations for Literacy and Mathematics

By the end of the Summer Term all children should be able to achieve the following statements:

Maths

I can say which number is one more or one less than a given number to 20.

I can add and subtract two single digit numbers by counting on and counting back to find the answer.

I can solve problems including doubling, halving and sharing.

Reading

I can read simple sentences and talk about what I have read.

I can read most phase 4 tricky words (said, so, have, like, some, come, you, were, there, little, one, do, what, out, when).

Writing

I can write all phase 3 tricky words and some phase 4 tricky words.

I can write simple sentences on my own, which can be read by myself and others.

I begin my sentences with a captain capital letter, leave spooky spaces between my words and finish my sentences with a Freddy full stop.
