Create a Flowerus Angularium (an angular flower).

- Choose your own shapes to include on the flower - can you name them and explain their properties to an adult?
- Mark some of the angles on the flower. Identify whether these are acute (smaller than a right angle), obtuse (greater than a right angle), reflex (between 180o and 360o), or if the angles are right angles.
- When you have identified the angles, measure the angles accurately to the nearest degree.

NB - Flowerus Angularium is a made up name. Please don't ask for these at the local garden centre.

Book of the Day!

When Tom is sent to stay at his aunt and uncle's house for the summer, he resigns himself to endless weeks of boredom. As he lies awake in his bed, he hears the grandfather clock downstairs strike . . . eleven . . . twelve . . . thirteen . . . Thirteen! Tom races down the stairs and out the back door, into a garden everyone told him wasn't there. In this enchanted thirteenth hour, the garden comes alive - but Tom is never sure whether the children he meets there are real or ghosts . . .

Parts of a Flower

Find out about how flowers are structured and what the different parts of a flower are called. You could start by looking [here](#):

Ask permission and pick a flower. Separate the flower carefully with tweezers or small pair of scissors into the individual parts.

Create a diagram that shows a flower, labels the main parts of the flower, and tells us what each part of the flower is for.

You will need to find out about and include these words:

Sepal
Ovule
Stamen
Stigma
Petal

Book of the Day!

In this visually compelling look at our changing environment by Jeannie Baker, illustrator of the critically-acclaimed *Mirror* and *Where the Forest Meets the Sea*, a mother and baby look through a window at a view of wilderness and sky as far as the eye can see. With each page, the boy grows and the scene changes. At first, in a clear patch of forest, a single house appears. A few years pass and there is a village in the distance... When the boy is twenty, will he recognize the view from his window? Illustrated with elaborate and gorgeous collage constructions, *Window* is a wordless picture book that speaks volumes.
