Katherine Rundell reading from *The Explorer*

From his seat in the tiny aeroplane, Fred watches as the mysteries of the Amazon jungle pass by below him. He has always dreamed of becoming an explorer, of making history and of reading his name amongst the lists of great discoveries. If only he could land and look about him.

- Listen to the clip a second time; this time make some notes
- How would you feel if you were Fred and realised the pilot was ill?
- What would you do?
- It seems that the plane is going to crash into the Amazon jungle. Is there anything you can do to avoid everyone being seriously hurt?
- What happens?

Book of the Day

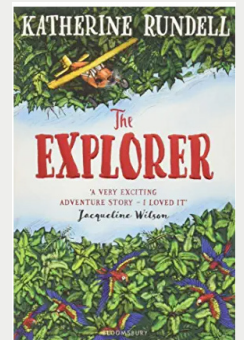

"Like a man-made magic wish the airplane began to rise. The boy sitting in the cockpit gripped his seat and held his breath as the plane roared and climbed into the arms of the sky".

From his seat in the tiny aeroplane, Fred watches as the mysteries of the Amazon jungle pass by below him.

He has always dreamed of becoming an explorer, of making history and of reading his name amongst the lists of great discoveries. If only he could land and look about him.

As the plane crashes into the canopy, Fred is suddenly left without a choice.

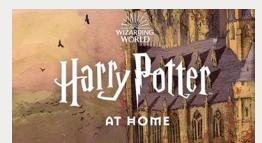

He and the three other children may be alive, but the jungle is a vast, untamed place. With no hope of rescue, the chance of getting home feels impossibly small. Except, it seems, someone has been there before them...

Paper Plane Maths

Go to <https://www.foldnfly.com/#/1-1-1-1-1-1-1-2>

This website gives you detailed instructions on how to make 45 different designs of paper aeroplane.

Have a go at making some of the designs.

See how far they fly. Measure the distance that they fly and record the data in a table or graph.

Unfold your paper planes. Estimate and then measure the angles that have been formed by the folds that you have made on the paper.

Serious Explorers from a Raleigh expedition

This is a clip which shows what creatures you could find in a rainforest and the hazards the children in "The Explorer" might encounter.

- Write or storyboard the next part of your explorer story
- Which of these creatures will your characters meet?
- How will they deal with the hazards and dangers of the rainforest?
- Try and leave the next part of your story on a "cliffhanger"

Research

The children that you saw in the BBC clip were from a Raleigh expedition, and Sir Walter Raleigh was mentioned in it. This is a portrait of him painted during the Elizabethan period. Here is another clip to start you on your research

- Find out who Walter Raleigh was
- Which parts of the world did he explore on his expeditions?
- Find these places on a map, globe or atlas

Book of the Day

- There are no words in this book so you will have to look closely at the pictures to make your own story.
- Choose one double spread page - the illustration showing the girl entering the city might be a good starting point - and think about what's going on.
- What can you see, and what questions do you have?
- Apart from the boat, the colours in this image are muted. How does this make you feel and what do you think about it?
- Think about the characters. If you could take the girl's place in the picture, what would you hear and touch, and what emotions would you feel?
- Now what might be going to happen next? Make some notes and use some quality vocabulary before you explore another double spread page.

Lunch

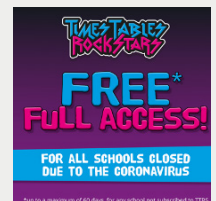

Wednesday 17th continued..

Investigate using a map, atlas or globe

- Find all the continents on your map, atlas or globe
- Identify one river in each continent if you can; (is there a continent that has no rivers)?
- Identify a big city in each continent (is there a continent that has none)?
- Identify a high mountain or mountain ranges in each continent
- Are there deserts in every continent?
- What else can you find? Challenge someone else to spot something on your map, atlas or globe.

Book of the Day

Onjali Q Raúf reads from **The Boy at the Back of the Class.**

Author Onjali Q Raúf reads from her award-winning children's book, *The Boy At the Back of the Class*, which touches on the refugee crisis from a child's perspective.

<https://www.youtube.com/watch?v=31RqI4Kwm-s>

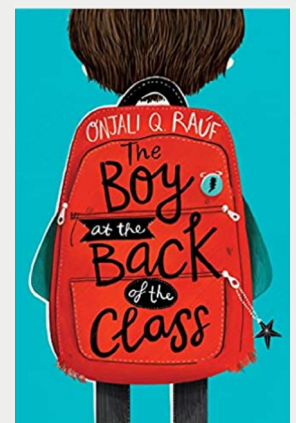

Told with heart and humour, *The Boy at the Back of the Class* is a child's perspective on the refugee crisis, highlighting the importance of friendship and kindness in a world that doesn't always make sense.

There used to be an empty chair at the back of my class, but now a new boy called Ahmet is sitting in it.

He's nine years old (just like me), but he's very strange. He never talks and never smiles and doesn't like sweets - not even lemon sherbets, which are my favourite!

But then I learned the truth: Ahmet really isn't very strange at all. He's a refugee who's run away from a War. A real one. With bombs and fires and bullies that hurt people. And the more I find out about him, the more I want to help.

That's where my best friends Josie, Michael and Tom come in. Because you see, together we've come up with a plan. . .

Travel plans...

- Go to [Expedia.co.uk](https://www.expedia.co.uk). This is a website where you can buy holidays. Pick a location somewhere in the world. Find the prices of flights to that location for a date in a month's time. Look for a flight from your nearest airport if you can. If not, look to fly from one of the London airports.
- What is the cheapest and most expensive flight that you can find? Find the difference between these flights.
- What if you travelled to other locations? What is the difference between the cheapest and most expensive flights to these locations?
- What would the cost be for different flights if you were booking for different groups of people to travel together? What about if you booked for the people who lived in your house? What about if you invited some more of your relatives or friends to come along?

Art work

Both the children in this story have magic crayons – one red, one purple. Starting with the dedication page, look at the pictures to find the different objects created by each child. If you could have a magic crayon, what would you draw?

- Now choose one of the pages, or invent one of your own.
- Draw it in shades of black and grey only at first, then add a magic crayon detail in red or purple where you choose

Book of the Day!

Why not watch the film trailer for Swallows and Amazons

<https://www.youtube.com/watch?v=ztlQkixuOmc>

The Walker children - also known as Captain John, Mate Susan, Able-Seaman Titty, and Ship's Boy Roger - set sail on the Swallow and head for Wild Cat Island. There they camp under open skies, swim in clear water and go fishing for their dinner. But their days are disturbed by the Blackett sisters, the fierce Amazon pirates. The Swallows and Amazons decide to battle it out, and so begins a summer of unforgettable discoveries and incredible adventures.

Book of the Day **The story behind The Secret Lake.**

Watch Karen Inglis the author talking about this book and what inspired her to write it.

<https://www.youtube.com/watch?v=kW8f2nymq4Y>

You can listen to the first three chapters here

<https://www.youtube.com/watch?v=g93cZpburqc>

When Stella and her younger brother, Tom, move to their new London home, they become mystified by the disappearances of Harry, their elderly neighbour's small dog. Where does he go? And why does he keep reappearing wet-through?

Their quest to solve the riddle over the summer holidays leads to a boat buried under a grassy mound, and a tunnel that takes them to a secret lake.

Who is the boy rowing towards them who looks so terrified? And whose are those children's voices carried on the wind from beyond the woods?

Stella and Tom soon discover that they have travelled back in time to their home and its gardens almost 100 years earlier. Here they make both friends and enemies and uncover startling connections between the past and present.
