Year 5 29/04/2022

This week in English we are looking at letter writing and the different types, informal and formal. We looked at the different features and how we would use them in a letter. We also used commas and a variety of describing words in our text.

In maths, we looked at how to round numbers to the nearest 10,000 and 100,000.

In geography we have been learning about the water-cycle and the stages of how sea water comes (collection) from oceans by the sun's heat(evaporation), turns to clouds(condensation) and falls as rain (precipitation), which we found all fascinating and wet our appetites for geography.

Have a lovely weekend

Miss Russell / Mr Baker
