Year 5  06/05/2022

This week in English we have continued to look at letter writing and the different types, informal and formal. We written both types of letters and are in the process of writing a formal letter of complaint about Mr Toad speeding in his car, causing havoc. We continued using the features of this type of text, commas in our sentences and a variety of describing words in our text.

In maths, we looked at Roman Numerals, where we would see and use them and we also carried tasks to enhance our knowledge.

In science, we are beginning to look at properties of materials, mixing these materials and observing their reactions. The children are looking forward to this terms science, as there will be lots of experiments and investigations.

Have a lovely weekend

Miss Russell / Mr Baker
