Year 5 20/05/2022

This week in English we have completed writing a formal letter to complain/recommend changes to the school lunches. The letter included all the features of this type of text, commas in our sentences and a variety of describing words.

In maths, we looked at adding and subtracting up to 4 digits using a formal method. We also used our knowledge to solve reasoning and problem-solving questions.

In science, we are continuing to look at properties of materials, mixing these materials and observing their reactions and writing these findings using a formal written format.

Have a lovely weekend

Miss Russell / Mr Baker
