Year 5 17/06/2022

This week in English we have planned and written a biography about Steve Backshall the famous adventurer and presenter of wildlife programmes. We organised our writing, adding paragraphs using cohesive devices, which has helped us to make our text read fluently.

In maths, we looked at identifying, describing and representing position on shape using coordinates to translate positions and shapes on a grid.

We continued learning about rivers and how they flow to the sea. We learned about erosion and deposition and how our rivers reposition themselves to create Ox-bow lakes.

Stay save and have an excellent weekend,

Miss Russell / Mr Baker
