Year 5 24/06/2022

This week in English we have been looking a verb sense and how we used them in a text. We will then use this knowledge in our narrative texts over the coming weeks. We will continue to organise our writing, adding paragraphs using cohesive devices, which will help us to make our text read fluently.

In maths, we looked at using the four operations to solve multi-step word problems. We identified the information in our word problems to help decide what operation we needed to use.

We continued to learn about rivers and how waterfalls are created due to erosion, where this process helps create plunge pools.

Stay safe and have an excellent weekend,

Miss Russell / Mr Baker
