Year 4

This week Year 4 have continued working on describing Medusa a character from Ancient Greek Mythology. They have continued to use excellent vocabulary in their descriptions, including the use of adjectives, adverbs and expanded noun phrases. We began a 'slow write' process were we take our time and discuss what we are going to write and how we structure our text to ensure we include all of the elements we want to include in our writing.

In maths we have continued on working extremely hard on place value including rounding to the nearest 10, 100 and 1000.

In history, we created a timeline of 10 important events in history including within before the Common Era (BCE) and common (or current) era (CE).

In science they have continued to learn about sound and have carried out investigation how sound travels. We found sound travels better in solid objects and water than gases. We made a doctor's stethoscope and listened to our hearts beating, which was a really enjoyable lesson and close to our hearts!

Have a lovely weekend

Miss Brotherton/ Mr Baker
