Year 4

This week, Year 4 have continued working on Ancient Greek Mythology with the introduction of Theseus and his adventures, especially with the Minotaur. We have been learning how to make our writing interesting and exciting using sentence openers to our texts. We have also continued to use excellent vocabulary in our descriptions, including the use of adjectives, adverbs and expanded noun phrases.

In maths we have continued to work extremely hard on adding up to 4 digit numbers together using efficient method from number lines to formal methods.

In history, we continued with the theme of creating timelines and now have included how the Ancient Greek era lies within the time frame. We then compared it with other events such as the Stoneage, Egyptians, Ancient Sumer and the Romans and identified who they interacted with reference to the time line.

In science, we have continued to learn about sound and have carried out investigation on how sound is muffled. We found that certain materials (cotton wool, plastic, cloth, wrapping foam, felt) muffle sound better that others and we then recorded these finding using an informative text.

Have a lovely weekend

Miss Brotherton/ Mr Baker
