Our week in Year 1 and 2 – 07.10.22

This week we have worked extremely hard in school. In Maths, Year 1 and 2 are coming to the end of their Place Value unit. Year 1 have been continuing to look at number lines and using them to help them count forwards and backwards. In Year 2 the children have been recapping counting in 2's, 5's and 10's. They have also been looking at number lines to 100 and estimating where given numbers would be.

In history this week, we have been looking at timelines and ordering events from 'beyond living memory' to 'living memory'. The children also began to look at certain events during the Victorian era and where they would appear on the timeline.

In Science, the children complete their investigation into what material makes the best spoon and have begun to explore which materials are waterproof.

We all loved having parents in this week to read with their children! Thank you to all who attended.

In cooking club this week we have been making cakes.

"They were yummy!"
