Year 4

This week, Year 4 have continued working on Ancient Greek Mythology moving on to the Greek tragedy Orpheus and Eurydice, where Orpheus loses his wife because he couldn't resist temptation and follow instruction and rules that Hades had given. We have over the weeks learned how to make our writing interesting and have now begun to write a retell of Orpheus and Eurydice using sentence openers, ambitious vocabulary in our descriptions which, include the use of adjectives, adverbs and expanded noun phrases.

In maths we have continued to work extremely hard on adding and subtracting up to 4-digit numbers using efficient methods from number lines to formal methods. We then used the method that we thought was the more efficient and more effective for us.

Throughout our science over the last term, we have learned about sound and have carried out many investigations on how sound is made, how it travels, how we hear sound and the parts of the ear. In addition, learned about how sound is muffled, what pitch and how we recognise it. The final lesson was to make our own instruments, discussing why they are made a certain way to given us different sounds and pitches.

Stringed and Wind Instruments

Have a lovely weekend
