Year 4

This week, Year 4 have continued working on Ancient Roman Legends Romulus and Remus. We have developed our understanding of the story of these two Roman Legends and have used the features of a narrative text and to help us write an interesting and exciting story. We have been using adjective, adverbs, frontal adverbials and apostrophes.

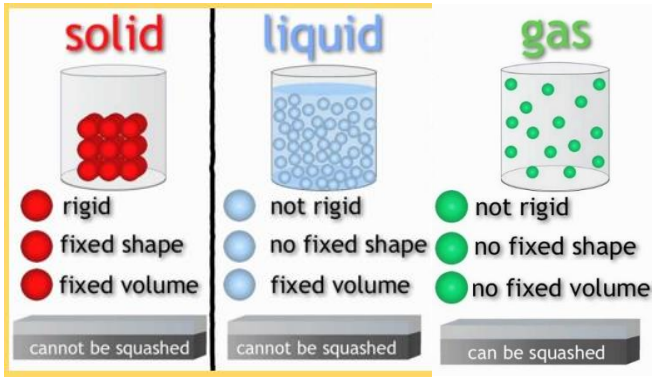

In maths we have continued to work on a multiplication skills and have been learning how to multiply and divide by 10 and 100 using place value and a mental method.

Multiplication National Assessment

At the end of the year we will be undertaking a national assessment of the children's times table knowledge. This is in a format of an interactive on line application. To help the children we have found an application similar to the national assessment and using this application will benefit and enhance your child of passing it but more importantly learning their times tables. The link is below

In science this week we started a new topic titled 'States of matter' this looks at the three material states solid, liquid and gas. We undertook some investigations to further our understanding of these.

Have a lovely weekend

Miss Brotherton/ Mr Baker
