Year 4

This week, Year 4 have now completed working on Ancient Roman Legends Romulus and Remus. We have written and independent write using the features of a narrative, adjective, adverbs, frontal adverbials and apostrophes to help us write an interesting and exciting story, including our own alternative ending.

In maths we have continued to work on a multiplication skills and have been learning how to multiplying using informal and formal methods.

Multiplication National Assessment

Remember to practice your times tables using the link below. The more you practice the better you will become.

In science this week we have continued about learning about 'States of matter'. We are still looking at the three material states solid, liquid and gas and continued carrying out more investigations to further our understanding of these. We learned about the properties of different materials including solids, liquids, and gases and now a mixture is called a suspension.

Have a lovely weekend

Miss Brotherton/ Mr Baker
