Our week in Year 1 and 2 – 20.01.23

In Maths this week, Year 1 have been using a number line to count forwards and backwards. They have also been using the number line to find 1 more than and 1 less than a given number.

In Year 2, the children have just finished their topic on Money. They have been learning to recognise coins and notes and their values. The children have also begun to find change from different amounts such 10p, 20p or a £1. They have all worked really hard this week and persevered.

In Science this week, children have begun their new topic 'Animals including humans'. We have looked at how animals are grouped into **5** different categories such as birds, mammals, reptiles, amphibians and invertebrates. The children looked at sorting different pictures of animals into the right groups.

"Reverend Iain showed us important features of the church such as the stained glass windows."

Reminder:

Homework and spellings will be sent home on Monday.
