Year 4

This week, Year 4 we have written explanation texts, using the features this type of text ensuring we are using subtitles, facts, paragraphs and specific vocabulary and including adjective and adverbs.

In maths, we have been working on finding the perimeter of regular polygons using unit measurement. We moved on to find the perimeter of polygons with missing lengths using are adding skills to help solve our problems.

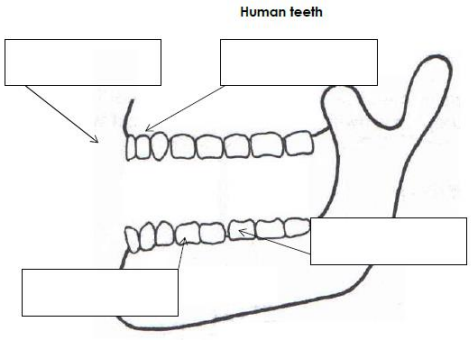

Multiplication National Assessment

Remember to practice your times tables using the link below. The more you practice the better you will become.

https://mathsframe.co.uk/en/resources/resource/477/Multiplication-Tables-Check

In science, this week we have changed our topic and are now learning about our teeth and digestion system. We carried out a number of activities to gain a better understanding of our teeth and tongue. This included naming the teeth and finding out the function of each type of tooth. We also investigated facts about the tongue, why we have a tongue and its functions such as for directing our food and for taste of food etc.

Swimming: We have been lucky and had our **swimming lessons has been extended by two weeks** so remember to bring your swimming costume on Tuesday.

Residential Visit: ARTHOG

At the moment, the Arthog preparations are still ongoing. More information and requests will follow so please keep an eye out for them.

Have a lovely weekend.

Miss Brotherton/ Mr Baker
