Year 4

This week, Year 4 have been learning about instructional texts, we looked at the features of this type of text such as subheading, paragraphs and specific vocabulary, including adjectives and adverbs. We then created a set of instructions to build an Easter Garden, which Christians use to represent the Easter story.

In maths, we have been working on Fractions, understanding what a fraction is, what a whole as a fraction is and what a mixed number is in relation to a fraction.

Multiplication National Assessment

Remember to practice your times tables using the link below. The more you practice the better you will become.

https://mathsframe.co.uk/en/resources/resource/477/Multiplication-Tables-Check

In science, this week we have continued to learn about our teeth, discussing how and why we brush our teeth. We talked about what stains our teeth and started an experiment to find out which drink will stain our teeth the worst and which drink will not stain our teeth and keep us healthy.

Swimming: There is no swimming this week as we will be attending an Easter Experience at St Michael's Church. **As we are going to church next Tuesday 28/03/23, the children are required to come to school wearing school uniform. PE kit is not required for that week.**

Residential Visit: ARTHOG

At the moment, the Arthog preparations are still on going. I have a meeting with the Site Manager and will update after this, when I have more information so please keep an eye out for them.

Have a lovely weekend.

Miss Brotherton/ Mr Baker
