

Year 4

This week, Year 4 have been looking at persuasive text, in particular adverts. We have been learning about the structure and features of this texts and have looked at different examples with similar and different formats and layouts.

In maths, we continued to look at decimals as tenths by using

Complete the sentences for the number in the place value chart.

| Ones | Tenths |
|------|--------|
| 3 | 2 |

There are ____ ones and ____ tenths.

____ ones + ____ tenths = $3 + 0.2$

= 3.2

visual models, fractions and decimal formats, were we compared and transposed between each format. We

How long is the ribbon?

then looked at decimals on number lines and carried out some problem solving questions.

Multiplication National Assessment

Remember to practice your times tables using the link below. The more you practice the better you will become.

I have now included a new website, which is a fun interactive game. Have a go with your friends and family.

https://www.transum.org/Software/SW/Flash_Tables/

In science this week, we have been learning about food chains and have learned new vocabulary to identify the role of the plant or animal in the food chain. We identified what each plant or animal is, whether a producer, a consumer, a predator or prey and found out that they could be more than one thing. We then used chromebooks and the internet to create our own food chain starting off with a plant or vegetation that produces its own source of food.

Have a lovely weekend.

Miss Brotherton/ Mr Baker
