Year 4

This week, Year 4 we, have begun to learn about Non-Chronological Reports and the features this type of text has. We have been researching and find facts about the Amazon Rainforest, using various media such as books, leaflets and the internet. We then wrote an introduction text, which included adjectives, expanded noun phrases and commas in a list.

In maths, we continued to look at decimals as tenths and how these make up a whole number. In addition, as we have completed assessment week.

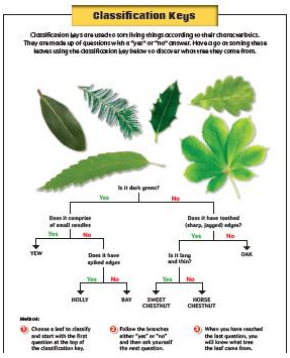

Multiplication National Assessment

Follow the links below to practice your times table, so we will keep these links in.

REMEMBER, the more you practice the better you will become!

In science this week, we continued the topic about understanding classification. We recapped last week's lesson about classifying different sweets and by following the key we could identify and name the sweets by their properties. We then completed a Classification Key on different trees by identifying the difference in the properties of their leaves.

Have a lovely weekend.

Miss Brotherton/ Mr Baker
