**Year 4**

This week Year 4, we began looking at writing a narrative about discovering a time capsule and describing what was inside, which turned out to be items from the 80's. Obviously the children didn't know what some the items were, such as VHS cassettes, view finders and how important Dunlop Green Flash were.

Unfortunately, Miss Brotherton and I did!

- The table shows the prices of train tickets.

| Tickets | Peak | Off-peak |
|---|---|---|
| Adult | £8 | £6 |
| Child | £5.30 | £4.20 |

Work out the cost for:

- one child and one adult at peak time
- one adult and two children at off-peak time

In maths, we continued looking at measurement of money. We consolidated identifying, converting and comparing different monitory values and solving problems.

**Multiplication National Assessment**

Follow the links below to practice your times table, so we will keep these links in.

REMEMBER, the more you practice the better you will become!

This week the children learned who their new class teacher was and had a transition morning with them. The children were very excited and the feedback we are got from them, is that they are looking forward to the next academic year, which is great to hear.

Have a lovely weekend.

Miss Brotherton/ Mr Baker
