Newsletter 22/11/2024

Once again, it has been a wonderful two weeks and as per usual, the feedback we are receiving is extremely positive with reference to their behaviour and how they are presenting themselves in the classroom and around school.

In English this week, we having been learning about balanced arguments, which included the features such an introduction, for and against, facts and opinion and conclusions. We will be writing texts, speeches and this will culminate in a classroom debate, where all the children will have a chance to stand up and present their augments.

In reading, once again, we have been using our retrieval skills to find answers from the text from questions posed. In addition, we started a new class book called 'Escape Room' by Chrispher Edge which looks very exciting.

This week in Maths, we have continued to learn about fractions, recalling what fractions are, how we can simplify them and then moved on to adding, subtracting, multiplying and dividing fractions by either another fraction or an integer.

In Science, we have continued with electricity, building circuits and drawing them using the correct symbols to represent each component. We started building a traffic light circuit which included identifying circuits, understanding the operation, building and testing to ensure it works.

<u>Homework</u>
Homework, set on Century, will be sent home every Thursday and will always be Maths, reading and SPAG based.

<u>PE</u>
We have PE on Wednesday and Thursday. Well done to everyone who came to school in their PE kits this week!

<u>Further Information.</u>

Next week will be assessment week, so maybe do a little revision.

Have a wonderful weekend!

Mr Baker and Mrs Wenlock
