Newsletter 08/11/2024

It has been an excellent start to the new term! As with the first term we are receiving fantastic feedback about behaviour and how they are presenting themselves in the classroom and around school.

In English this week, we completed our 500 words competition and have begun working towards the Y6 debate competition where we have been learning about what a debate is, why we have them and the features of a debate, which are needed to include when creating in written form.

In reading, we have been using our retrieval skills to find answers from the text from questions posed. In addition, we also brushed up on our dictionary work where we undertook a variety of engaging activities to find words, find the meaning of these words and how to navigate the dictionary to find words with posed questions.

This week in Maths, we begun to learn about fractions, what fractions are, how we can simplify them, identifying then on a number line, comparing and finally ordering them. Next week we will be learning how to add and subtract fractions using different fractions including mixed.

In Science, we have continued with electricity, building circuits and drawing them using the correct symbols to represent each component. We carried out an investigation on how a change int voltage would affect the circuit components. We had to hypothesise whether a circuit would work, build it, test it and write a conclusion.

<u>Homework</u>
Homework, set on Century, will be sent home every Thursday and will always be Maths, reading and SPAG based.

<u>PE</u>
We have PE on Wednesday and Thursday. Well done to everyone who came to school in their PE kits this week!

<u>Future Information.</u>

Parents evening Monday 11.11.2024 and Wednesday 13.11 2024

Have a wonderful weekend!

Mr Baker and Mrs Wenlock
