Newsletter 16/01/2026

Hello and Happy New Year and once again extremely impressed with the Y6, getting awesome praise from all areas, from in school and by the Bikeability Programme leaders saying how wonderful the children are - polite, respectful and eager to interact with his presentation, asking appropriate and well delivered questions – we are very proud of them!

This week in maths, we finished measurements, learning about standard units- compare and converting. In writing we had just started creating a story map and in reading we have continued completing comprehension tasks, finding information from the texts given and dictionary work.

Also, this week, due to Bikebility, we had a week of recapping maths, English and reading using a variety of media from reading SATs assessment, maths revision material for maths and SPAG materials to help us with enhancing our writing skills. The children excelled at this, working in small groups supporting each other's learning. Once again making me a proud teacher, seeing on how these children work wonderfully to support each other in such a positive manner.

As mentioned, we were lucky to have the Bikeability Programme team in, who came in and worked with all the children on improving their riding skills from learning to ride a bike safety to the adventure of riding in groups on the roads around Madeley.

Homework

Homework will be sent home every Friday and is on Century.

PE

We have PE on Wednesday and Thursday. Well done to everyone who came to school in their PE kits this week!

Have a wonderful weekend!

Mr Baker
