Reception Home Learning

09.01.2026

Task 1

Watch the following word time videos on the Ruth Miskin portal by scanning the QR code on a device.

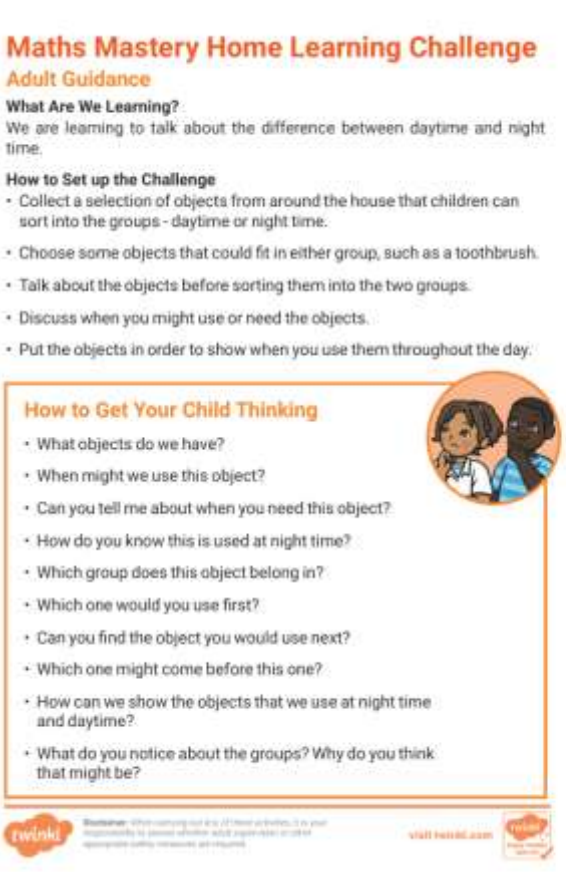

Task 2

Log in to your child's Oxford Owl account using their log in details. Please read the sound blending book first, followed by completing the blending quiz. Clink the 'login' link below.

Task 3

Maths Mastery Home Learning Challenge

Adult Guidance

What Are We Learning?

We are learning to talk about the difference between daytime and night time.

How to Set up the Challenge

- Collect a selection of objects from around the house that children can sort into the groups - daytime or night time.
- Choose some objects that could fit in either group, such as a toothbrush.
- Talk about the objects before sorting them into the two groups.
- Discuss when you might use or need the objects.
- Put the objects in order to show when you use them throughout the day.

How to Get Your Child Thinking

- What objects do we have?
- When might we use this object?
- Can you tell me about when you need this object?
- How do you know this is used at night time?
- Which group does this object belong in?
- Which one would you use first?
- Can you find the object you would use next?
- Which one might come before this one?
- How can we show the objects that we use at night time and daytime?
- What do you notice about the groups? Why do you think that might be?

Day or Night Sorting Game

- Look at the objects.
- Can you describe the objects?
- What might you use in the daytime?
- When might you need this object?
- Which one would you use first?
- Can you sort the objects into groups?

Task 4

For your final challenge today choose an activity from the choices below. Once completed please share these via Tapestry for us to share with your friends back at school. You don't need special resources – everyday play supports learning!

🏠 Indoor Play

☐ Build a den using blankets, cushions, and chairs
☐ Have a teddy picnic or story time in the den
☐ Enjoy role play (shop, café, superheroes, animals)
☐ Play with small world toys (cars, animals, dolls)

🎲 Games & Learning Through Play

☐ Play a board or card game (taking turns)
☐ Roll a dice and count objects or jumps
☐ Go on a treasure hunt around the house
☐ Sort toys by colour, size, or shape

✏️ Mark Making & Creative Fun

☐ Draw or paint winter pictures
☐ Write or draw in flour, salt, or shaving foam
☐ Make paper snowflakes
☐ Create a winter collage using recycled materials

📚 Talk, Read & Sing

☐ Read a winter story together
☐ Make up a snow-day story
☐ Sing songs and nursery rhymes
☐ Talk about the weather and how it feels

🍪 Cooking & Life Skills

☐ Bake simple treats together
☐ Make hot chocolate and count marshmallows
☐ Pour, stir, and spread independently

Most importantly: Have fun, talk together, and enjoy the day!

Mrs Smith 😊
